Summary

I am a recent graduate with a passion for frontend development using React. Throughout my studies, I have gained experience in various programming languages and tools, with a focus on building responsive and user-friendly web applications.

As someone who is keen to learn and grow in the field of frontend development, I am constantly seeking out new challenges and opportunities to expand my skills. I have a particular interest in React, and I have completed several projects using this framework, including a responsive e-commerce website.

In addition to my frontend skills, I also have experience with Laravel, a popular PHP framework for building web applications. During my studies, I completed a project using Laravel to develop a custom content management system for a client.
